# RETISHA NAKIYEMBA

**Full-Stack Developer | Virtual Assistant**

Kampala, Uganda • 0701066872 / 0748864949 • retishanakiyemba202@gmail.com

GitHub:github.com/retisha256 • LinkedIn: linkedin.com/in/retisha-nakiyemba-50b9462a3

## PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience across frontend and backend, currently building CRM, CMS and public-facing systems on a legal technology platform. Holds a Certificate in Software Engineering with Python from Refactory Academy, with project work spanning React, Next.js, TypeScript, Django and Node.js. Also trained in AI operations and executive support, including AI risk management, automated workflow design and data-privacy enforcement. Comfortable taking features through build, test and deployment, with a strong grasp of OOP, data structures and problem-solving.

## TECHNICAL SKILLS

**Frontend:** React, Next.js (App Router), React 19, TypeScript, JavaScript, HTML, CSS, responsive web development, UI/UX design

**Backend:** Django, Django REST Framework, Node.js, Express.js, RESTful APIs, API integration

**Databases:** PostgreSQL, Supabase, SQLite, MongoDB

**Security & Integration:** Authentication, role-based access control, secure API routes, mobile money integration, AI output verification, data-privacy enforcement

**Tools & Methods:** Git/GitHub, Agile, code review, Figma, Object-Oriented Programming

## AI OPERATIONS & EXECUTIVE SUPPORT

Executive workflow management • BLUF communication • automated inbox triage • strategic calendar architecture • AI risk management • verification of AI-generated data • automation-bias prevention • data-privacy boundaries

## PROJECT EXPERIENCE

**Vigour Technology Inc** Aug 2026 – Present

*Frontend & Full-Stack Developer Intern | Remote (Nigeria)*

- Designed a Practice Head role model and audited the lead/task lifecycle, surfacing four defects caused by an unenforced status state machine.
- Diagnosed the CMS's SEO scoring system and produced a roadmap to align it with industry-standard tooling.
- Specified a Lawyer Profile Management system covering data modelling, hierarchy sort logic, public API design and CMS interface.
- Replaced fragile server-migration tooling with reliable Postgres backup and restore scripts.

**Farmer's Companion — AI-Powered Agricultural Assistant** 2026

*Full-Stack Developer*

- Built an AI farming assistant accessible via USSD, SMS and Voice on any 2G phone, requiring no smartphone or internet.
- Integrated Africa's Talking APIs and Sunflower AI, a Uganda-focused LLM, for localized support in English, Runyankole and Acholi.

- Developed the Django backend with SQLite for farmer profiles, crop data and transaction history.

**Academic Services Platform** 2026

*Full-Stack Developer*

- Architected a platform using Next.js 15 App Router, React 19 and TypeScript 5.
- Built a secure, role-based admin dashboard with Supabase PostgreSQL, Authentication and Storage for client intakes, messages and a custom blog CMS.
- Engineered data validation and secure API routes using React Hook Form and Zod for multi-step client workflows.

**Novuna Electronics E-Commerce Platform** 2025 – 2026

*Full-Stack Developer*

- Developed an e-commerce platform using Node.js, Express.js and MongoDB.
- Integrated MTN Mobile Money and Airtel Money payment workflows.

## EDUCATION

**Certificate in Software Engineering with Python** — Refactory Academy June 2025

**Bachelor of Business Administration — Artificial Intelligence** — Nexford University Currently pursuing

**Certificate for Virtual Assistants** — ERA92 Academy Expected Nov 2026

## PROFESSIONAL DEVELOPMENT

**Leadership Development Program** — ASPIRE Programs Completed Sept 2026
